### DETAILED ACTION

1. This action is in response to applicant's amendment received on 03/22/05.

#### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2, 6, 18, 19, 35 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Sportsman (2620929).

Regarding claims 2 and 6, Plumb discloses (Fig. 1-6) the invention including a body 26, a center leg 38 having a leg work piece-contacting surface 40, first and second tunnels (Fig. 2), a first leg 12 having a first leg work piece-contacting surface 14, a flat side 6, non-slip surfaces (the bottom surface of the three legs) and a second leg 12 having a second leg work piece-contacting surface 14 (the right leg on Fig. 2). Regarding claims 18 and 19, Sportsman teaches a structure 26, a flat surface 6, means (44 and 46) for adjusting the width of the tunnel and coplanar work piece contacting surfaces (Fig. 4). Regarding claim 39, Sportsman teaches a handle 34 (see Fig. 1, the top surface of the member 34). Sportsman's device is capable of passing a saw device through the tunnel.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claims 4 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sportsman (2620929) as applied to claims 2 and 18 above, and further in view of Hackworth et al. (2134606).

Sportsman discloses the invention substantially as claimed except for a leg with a different width. However, Hackworth et al. teaches the use of a leg with a different width 13 for the purpose of having a stronger support. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified Sportsman's leg by providing the leg with a different width as taught Hackworth et al. by in order to obtain a stronger support.

***Allowable Subject Matter***

6. Claims 1, 22 and 23 are allowed.

***Response to Arguments***

7. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
